EAGLE School is a pro-vaccine community with a very high compliance rate on all vaccines, including for the COVID-19 vaccine. Students entering EAGLE must demonstrate compliance with state law immunization requirements. The current student immunization age/grade requirements are listed in the table below. State law requires that when schools post notice of their immunization requirements, they must also notify recipients that the recipients have the right to object to immunizations for reasons of health, religion or personal conviction and may seek a waiver of the immunization requirements.

If your child is offered a place at EAGLE School, will you have your child receive all the immunizations required for his/her age and grade? Yes No *
